PROJECTS

My Project Vault includes

- CanSat
- Arduino-based car with a controller
- ESP32-controlled room lighting system
- Line follower robot
- Mini Sumo robot
- Micromouse robot
- Different PCB designs

HOBBIES AND INTERESTS

Robotics and electronics

- self-taught in the domain of microcontrollers and sensors
- realised Arduino, ESP32, STM32 based projects
- carried out diverse electronics projects and circuits
- achieved experience from DIY projects
- took various courses from Udemy, YouTube, etc

Aeronautical Engineering

interested in:

- liquid rockets and rocket propulsion systems

- Aeronautical Engineering
- Aerospace Structures and Materials
- Satelites and satelite communications
